EXPERIENCE

Associate Consultant

KPMG Global Services | Nov 2019 - Present

- Member of the CIO Advisory practice specializing in ServiceNow
- Service Portal SME - Specialized in building Portals, pages and widgets which are user friendly, responsive and cross-device compatible
- Developed custom and scoped business applications in ServiceNow with extensive development on UI pages, usage of API's and overall UX
- Worked on Governance, Risk and Compliance module in the ServiceNow Hackathon 3.0 solution and bagged the Runner Up position along with the Most Interesting Risk Award
- Delivered knowledge transfers to the client team on effective utilization of the applications, its operation and maintenance
- Extensive development in the IT Service Management and various modules like Customer Service Management, CMDB, Incident, Change, Problem, Service Catalog, Case Management, Knowledge and Transform Maps
- Contributed reusable utilities to the team and worked on some internal projects like the Resource Management Application and Hiring Application which help in the smooth running of related processes within the team

Intern

BOSCH | Feb 2019 - Apr 2019

- Intern at the Industry 4.0 department
- Member of the development and testing team of the project Digital FIFO and Inventory Visualization. The project involved building a Web Application which tracks the inventory of the manufacturing parts of a particular section in the production area using Kanban
- Responsible for testing the Application by verifying the flow of PCB's and other components from one section to the other during the manufacturing of ABS chips

Intern

InKnowTech | July 2018 - Aug 2018

- Configured an Online Assessment Portal using an open-source Application to aid hiring for various roles such as Network Administrator, System Administrator and Database Administrator
- Delivered Knowledge Transfer to the HR team on the usage and maintenance of the application
